

## Newborn Screening Bulletin 2021-4

June 29, 2021

### Long weekend shipping reminders

The Canada Day holiday falls on Thursday this week and we would like to remind you of the importance of prompt shipping of newborn screening samples. **Purolator is closed on Thursday, July 1st, and it is very important that all samples that are ready to ship are sent on Wednesday, June 30th and Friday, July 2nd.** When shipping samples on Friday, please ensure the Saturday Delivery option is selected.

### Clarification about recent changes to the newborn screening card

In bulletin 2021-3, we introduced you to some changes that appear on the next version of the newborn screening card. We would like to clarify that you should continue to use the cards you currently have in stock (as long as they haven't expired), before using the latest version.

### Updating our submitter bulletin distribution list

We are upgrading to a new contact management system and will be updating our distribution lists. Please let us know if you are no longer involved in newborn screening at your organization and wish to be removed from the submitter bulletin distribution list. Please note that we may be in contact with you to confirm your contact information and subscription preferences.

**Thank you for your ongoing commitment to newborn screening; we hope you have a fantastic Summer!**
