

Newborn Screening Bulletin 2024-1

February 5, 2024

NSO's new website and Submitter Hub go live!

On January 15th, NSO's new website went live—with a refreshed look and updated content.

Highlights include:

- Information about all types of screening: dried blood spot (DBS), critical congenital heart disease (CCHD), biliary atresia (BA) and permanent hearing loss (PHL) risk factor screening
- More control over updating and adding content—so we can ensure our information is up-to-date!
- Simple navigation
- New French content and forms

What is the Submitter Hub?

In addition to upgrading our website, we have launched a brand-new Submitter Hub microsite—an online, up-to-date newborn screening manual. This online resource replaces the printed Newborn Screening Manual, which was last updated in 2018, with all of the same content plus additional educational resources. The Submitter Hub can be accessed from a desktop, tablet, or smartphone from our main website, or at:

<https://submitterhub.newbornscreening.on.ca/>

Here, you will find refreshed and modernized resources for newborn care providers, including a new **dried blood spot e-learning module**.

Upcoming Webinar:

We will be hosting a webinar on **February 14th, 2024 at 12:00pm** to review changes to our website and help you navigate the new Hub. Feel free to share the below Zoom link with all members of your team involved in newborn screening.

Dial in: Find your local number <https://us02web.zoom.us/j/88644472311?pwd=azJFZkloT29SazNqS3dack03WVVYQT09>

As you view our new website and Submitter Hub over the coming weeks, we encourage you to send any feedback or questions to us at newbornscreening@cheo.on.ca. Additionally, although we've refreshed our content and navigation with our visitor audience in mind, please let us know if you are unable to find what you are looking for.

Best,

Newborn Screening Ontario
